Subject: K Div Update 2022 02 15 at 12:00 Hrs - Commr. Update.

Coutts POE is open southbound with approximately 100 vehicles going into the US overnight and approximately 4 semi-trucks this morning. CO has sent an Email to CBSA advising that RCMP no longer need the POE closed and they can open based on their schedule.
Protestors at Coutts main site are moving their tractors away from the intersection and those they cannot drive away are being parked in a field away from the area.
Vehicles at Checkpoint 10 are thinning out and no longer blocking the highway, to traffic. Protestors at CP 10 cleaning up the site, and some may move to the alternate protest site set up earlier by the Min of Transport.
Investigation is continuing. Legal services are involved and providing advice on Emergencies Measures Act going forward to prevent similar things re-occurring at Coutts or other sites.
